Provided that, if the boiler is worked under a declaration for any period less than 30 days, the owner, manager, and agent shall nevertheless be liable to pay the same fee as if he had taken out a certificate.

XII.—For every certificate of inspection granted under this Act, the owner, manager or agent of the steam-boiler inspected shall pay to the Commissioner of Police a fee calculated on the horse-power of the steam-boiler according to the scale laid down in rule XVII, and such additional fee, in respect of the expense (if any) of the journey of the Inspector to the place where the boiler is situated, as is prescribed in rule XVIII.

(b)—An ordinary inspection made at any time when the Inspector has reason to believe the boiler is being improperly worked or that the person in charge is not competent.

XV.—The Inspector shall give one week's notice of every such intended thorough examination; and

if after that notice the boilers are not empty, cool, clean, and ready for inspection on the date named, the Inspector shall prohibit the boilers from working, and shall report the case to the Commissioners. Further, if any request be made to remove, fittings or settings, and such be not complied with, the Inspector shall in like manner stop the working of the boilers (a).

(a) Provided that the inspection of boilers in the Raneeunge sub-division shall be made during the months of November to May inclusive, and the Inspector shall give 14 days' notice of the day when he will make such inspection.

If any boiler needs inspection in the Raneeunge sub-division during the months of June to October inclusive, either as being a new boiler requiring a certificate, or as being a boiler which the owner for any other reason wishes to have inspected, it may on the application of the owner, manager or agent be inspected during that period.

HIGH COURT NOTICES.

It is ordered that, in substitution for the rules passed on the 26th day of January last, the following rules be read and passed—the rules and orders of the High Court of Judicature at Fort William in Bengal, to take effect from the 1st day of March 1888:—

1. A list of references of every description which are ripe for hearing and are pending before the Court itself, or before any of the officers of the Court, or any other Commissioner appointed to take accounts or make enquiries, shall be published at such times and in such manner as the Judge, ordinarily taking motions on the Original Side of the Court, may from time to time determine.

2. The printed cause list for each day shall contain a list of the references liable to be heard on that day by the officers before whom such references are pending.

3. Such list of references shall be divided into two parts: the first of such parts to consist of references of an urgent nature, or which can be quickly concluded, and to be styled "List of urgent references;" the second part to consist of all other references and to be styled "List of ordinary references."

4. Urgent references shall include the following:—

Accounts in mortgage suits.

Sales by the Registrar.

The settlement of proclamations, of conditions of sale, or of conveyances.

Enquiries under section 267 of the Civil Procedure Code, or under section 90 of the Probate and Administration Act.

Enquiries as to what would be proper to be allowed for maintenance or marriage expenses.

Enquiries as to whether proposed terms of settlement would be for the benefit of a minor.

References as to the appointment of guardian, and such other enquiries and references as may be determined by the Court or a Judge.

5. Any Judge sitting on the Original Side may order any particular reference or enquiry to be transferred from either list to the other. Such order need not be made in Court, but may be made upon a representation made by the Registrar or other officer or Commissioner. It shall not be made except by consent or on notice.

6. No reference shall be placed in the list of references for the day unless it be ripe for hearing.

No ordinary reference shall be deemed ripe for hearing until a Judge or the officer to whom the matter is referred has certified that the points in issue have been ascertained.

7. The Registrar or other officer shall, at the commencement of each daily sitting, hear applications with regard to pending references, and shall not hear any reference until such applications have been exhausted; but such application shall not ordinarily be made or heard on any day after the hearing of references have been commenced.

8. The officer or Commissioner shall on each day in the first place hear in order the urgent references on his list for the day, and shall then proceed to hear in order the ordinary references on his list for the day.

9. Each reference shall, unless otherwise ordered by a Judge, be taken in its turn, and it shall be continued *de die in diem* until it be concluded.

No reference on the list of causes for the day shall (without leave of the Court or a Judge) be postponed or adjourned, except under circumstances which would justify the postponement or adjournment of a cause.

10. References not on the list of causes for the day can, at the discretion of the person to whom they have been referred, be postponed or adjourned, but subject to the control or orders of the Judge taking motions on the Original Side.

11. Any Judge sitting on the Original Side may, by an order made upon notice in Court or in Chambers, postpone or adjourn any reference pending before himself or before any officer or Commissioner.

12. When, in the opinion of the Judge taking motions on the Original Side, it is necessary that some or all of the references pending before any officer of the Court or Commissioner should be heard by the Court itself or by some other officer or Commissioner, such Judge may recall such references into Court, and any time make such order as may be necessary for the purpose aforesaid, or if the parties should consent to any such change he may make such order without recalling the reference into Court.

13. The Registrar or other officer taking a reference may at any time, pending the reference or on its conclusion, apply for the opinion of the Court on any question which may arise in the reference, and for such purpose may report specially. Such special reference may be made at the instance of either of the parties, or at the instance of the officer himself.

14. In case an officer refuse or decline to make special reference when requested by a party so to do, such party may apply in Chambers by a petition on notice to the other parties to the reference for an order requiring the officer to report specially.

The Judge may in his direction make such order upon such terms as to costs or otherwise as he may think fit.

15. These rules are to be read with and to form part of the general rules of the Original Side.

16. These rules shall come into operation on and from the 1st day of March 1888.

NUDDIA RIVERS.

No. 112.—Notification.—The following Resolution and Notification, having reference to the abovenamed navigable rivers which are under the provisions of the Canals Act (V of 1864, B. L. C.), are published:—

READ—

Letter from the Board of Revenue reporting on certain points connected with the administration of the Nuddia Rivers, and suggesting that the Public Works Department should, in order to avoid divided control and responsibility, take over their working and management.

Letter from the Board of Revenue stating, in reply to an enquiry with reference to their previous proposal, that the Board see no objection to the transfer of the administration to the Public Works Department being made from 1st April next.

RESOLUTION.

On a full consideration of all the facts and circumstances that have been brought to notice from time to time, and of all that has been urged by the Board, and after consulting the Revenue Department, the Lieutenant-Governor is of opinion that the present system of revenue administration under the direction of the Board of Revenue and Civil Officers, coupled as it is with the necessity for audit of accounts under rules obtaining in the Public Works Department, is a source of friction inseparable from a system of dual control and opposed to the best interests of the management. His Honour is therefore of opinion that the management of these rivers should be placed under the control and management of the Public Works Department, subject to the orders of Government in the Irrigation Department of Public Works. Accordingly the following notification is issued.

All points of detail connected with this transfer of management will be settled departmentally.

NOTIFICATION.

It is hereby notified for general information that, from the 1st April next, the management of the Nuddea Rivers will vest in the Public Works Department, and that the regulation of the traffic and collection of tolls will be carried out according to the rules in force from time to time under the orders of the Executive Engineer of the Nuddea Rivers Division, subject to the control of the Superintending Engineer, South-Western Circle. The power to collect tolls on these rivers under section VIII of the Canals Act (V of 1864, B.L.C.) which is exercised by the Collectors of the Moorsshedabad and Nuddea districts will, from the 1st of April next, be exercised by the Executive Engineer, Nuddea Rivers Division.

Consecutive Office No. 332—Departmental 1083, Superintendents 82.

Board of Trade, Marine Department, January 1888.

INSTRUCTIONS TO SUPERINTENDENTS.

PAYMENT OF WAGES IN INDIA AND PORTS ABROAD.

Rate of Exchange.

THE practice of seamen signing agreements containing provisions for the payment of their wages (in the event of their being discharged abroad) at a fixed rate of exchange is reported to be on the increase.

The result of seamen signing such agreements is, owing to the present low rate of exchange for the rupee, that if paid off in India they receive only about three-fourths of the amount of wages which would be due to them if paid at the current rate of exchange.

The Superintendent is requested, therefore, to be careful to assure himself that seamen before signing such agreements are fully aware of the consequences of their so doing.

This instruction equally applies in the case of vessels bound to all foreign countries where the seamen's agreements provide for the payment of their wages at a fixed rate of exchange.

IMPORTANT TO SEAMEN.

PAYMENT OF WAGES IN INDIA AND OTHER PORTS ABROAD.

Rate of Exchange.

THE practice of seamen signing agreements which contain provisions for the payment of their wages (in the event of their being discharged abroad) at a fixed rate of exchange is reported to be on the increase.

Seamen are therefore hereby warned that, if they agree to a condition that they are to be paid off in India at the rate of 2s. a rupee, they will, owing to the present low value of the rupee, receive about three-fourths only of the sum they would be entitled to if no such condition were inserted in the agreement.

Seamen are also warned that the higher the value placed upon the rupee or other foreign coin, the less money they will receive. For instance, if a seaman's wages are £5 a month, and he is paid off at 2s. a rupee, he will receive 50 rupees for each month, but if he is paid off at 1s. 6d. per rupee, the present current rate of exchange, he will receive about 70 rupees.

Or again, supposing the seaman's wages are £5 a month, and he is paid off at a port in the United States at 4s. 6d. per dollar, he will receive about 22 dollars per month, but if he is paid off at 4s. 2d. per dollar, the present current rate of exchange, he will receive 24 dollars.

This caution applies equally to vessels bound to all foreign countries where the seamen's agreements provide for the payment of their wages at a fixed rate of exchange.

- I.—The Commander of every vessel, including buggalows or other native craft, arriving from Rangoon, shall, before entering the harbour, indicate by signal the port from which such vessel has come.
- II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.
- III.—Immediately on arrival the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and susceptible goods.
- IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	...	six days of quarantine.
Do. nine do.	...	five do.

- VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.
- VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden and Perim which may have communicated with vessels coming from Rangoon shall be subjected to the same quarantine as vessels arriving at Aden and Perim from that Port.
